

More Simple, More Smart

New AlorAir-C APP WI-FI Connection Guide

For Android and Apple users, the operation method and process are the same.

ALORAIR

NEW

Download and install AlorAir-C from the App Store or Google Play Store.

Download on the App Store

GET IT ON Google Play

How it works?

1 Sign up and login your account.

Make sure you use the same account ID when registering and logging in, paying special attention to the case of the first letter.

2 Find your dehumidifier model.

Let's take Sentinel HD55S as an example.

3 Follow the App steps to reset your device.

Press the "UP" key and the "DOWN" key at the same time for 3-5 seconds.

After the system beeps, the Wi-Fi icon will start flashing on the upper right of the board.

NEW

4 Click the "switch button" and connect to the device Bluetooth: bk 7231.

Don't go to connect Bluetooth from the system settings, it can't be found.

5 Connect to the home Wi-Fi.

Wrong password will cause subsequent connection failure.

Connection Successed

Once the app has finished Connection, you can start controlling the device.

Connection Failure

If it fails, follow the APP prompts to troubleshoot and restart the connected device.

Add New Device

Enter the device list, you can click the "+" button to continue adding new.

For the best user experience, we recommend placing your router near your dehumidifier or investing in a router with better coverage. This will ensure a stable signal while the dehumidifier is in operation.
